Heat Stress is responsible for milk production losses of 15% to 25% or more - about \$1-\$1.50 per cow per day! Plus, heat stress runs the risk of causing long-lasting effects that can lower milk production for up to six months. Protect your herd with Schaefer fans featuring:

- 36" Direct flow circulation fan 36DFA, single phase
12,623 cfm

- 36" Direct flow circulation fan 36 DFB, three-phase
14,016 cfm
